**STAGES 1 & 2:** Carico's Proprietary Blend of Carbon effectively removes or reduces chlorine, sediment, volatile organic compounds, herbicides, heavy metals, THM's plus bad taste and odors.

**STAGE 3:** Carico DS Composite™ prevents scale giving the water a softer feel.

**STAGE 4:** NSF Certified KDF 55 filtration media controls bacteria, algae and fungi even in hot water. Reduces chlorine, pesticides, organic matter, hydrogen sulfide and heavy metals such as lead, cadmium, mercury and arsenic.

**STAGE 5:** High Density Garnet Bed is designed to remove any remaining carbon fines and sediment.

**STAGE 6:** Breakthrough Magnetic field technology conditions the water without the use of salt or electricity, giving the water a softer feel, while leaving in the vital minerals that are necessary for good health.

- Spotting is reduced.
- Hair becomes silkier
- Skin feels softer.
- Reduces scaling on pipes & appliances.
